ABOUT ME

As a seasoned and highly skilled senior smart contract engineer, I bring a deep passion and expertise in the crypto, DeFi, and web3 space to every project. My specialty is in the solidity smart contract development for a wide range of use cases.

I have a thorough understanding of DeFi, NFTs, DAOs, dApps, web3, crypto, and blockchain in general, and I have been working on my personal web3 projects since 2018.

Also, I speak English with a native-level fluency, and have a proven ability to communicate effectively and collaborate remotely, which makes me a valuable asset for any team.
